Acer grandidentatum - Northern Utah seed source

Bigtooth Maple To 40', Zone 3. Native to western North America, along streams from Idaho to Wyoming and south to Mexico. Brilliantly colored fall foliage. Lustrous green leaves, seeds emerge rosy-pink. Shrubby in youth, rounded head at maturity. Considered to be a subspecies of *Acer saccharum*. One of the most sought after inter-mountain native trees.

Buddleia davidii

Summer Lilac, Butterfly Bush To 6', Zone 5-9. A common landscape plant since the 19th century. Vigorous growing, steady bloomer with a worthwhile display of lilac colored flowers. Seed propagated. Shipment prohibited to Oregon and Washington.

Rosa Rugosa

Rugosa Rose To 6', Zone 2. Extremely vigorous and hardy. Deep pink to white flowers (up to 3"). Red fruit nearly 1". Excellent hedge. The most popular of all the roses. Widely planted especially in colder climates.

Prunus virginiana

Chokecherry To 25', Zone 2. Racemes of white flowers, red to purple fruit good for jelly and syrup. Gives good display of autumn color. Drought and heat tolerant.

Malus golden delicious (m26)

Golden Delicious Apple Zone 4. Best all purpose apple. Spur type is early bearing

Prunus-Elberta (Halford)

Elberta Peach Zone 5. Large, yellow blushed red fruit. Juicy, flavorful freestone flesh. Ripens from late July to Mid-September (in cold climates). Good for fresh, canning, freezing and jam. Self-fertile and a good pollinator for other peaches.

Prunus-Van (Avium)

Van Cherry Zone 5. Large, reddish black, sweet, Bing type fruit, excellent used fresh or for cooking, canning and freezing. Bears heavy annual crops. Good cold tolerance, split resistant, ripening mid-June to early July. Pollinate with Bing, Royal Ann or Stella.

Syringa vulgaris

Native American Plum To 50', Zone 3. Shrub or tree. Profuse white flowers. Very hardy. Excellent for wildlife food and habitat.

Syringa vulgaris

Common Purple Lilac To 20', Zone 3. Shrub. Fragrant lilac colored blossoms in May. Attractive green foliage. Good for screen.

Spartan Juniper zone 4, Cutting grown evergreen conifer; the densest upright juniper. Heat and drought tolerant, dark green year-round. Grows quickly to 18' + tall and 8'10'wide. Forms and excellent wind and privacy screen while remaining tidy.

Siouxland Cottonless Cottonwood : Large, fast-growing deciduous tree valued for quick shade. Ample water is needed to grow at maximum rate.
